VEIRC, New Delhi

Dr. S.C. Gupta
Medical Director
VEIRC, New Delhi

Late Dr. R. K. SETH- VENU's FOUNDER DIRECTOR

The late Dr. R. K. Seth, Founder Director of Venu, dedicated his life to the service of humanity, especially the visually afflicted. Often referred to as a dreamer, Dr. Seth is today acknowledged as a great visionary, one of the pioneers of community eye care in North India, who created an institution with a difference.

Dr. R. K. Seth, born on 2nd October 1939, graduated from Amritsar Medical College and completed his post-graduation in ophthalmology from Maulana Azad Medical College, Delhi, in 1966. He practised as an ophthalmologist for many years. He then decided to give up his quest for name, fame and wealth and use his considerable skills as an eye surgeon to bring modern eye care to those who could not access it, regardless of their ability to pay.

Venu Charitable Society was established by Dr. Seth with the help of few like- minded people in 1980. Venu Eye Institute & Research Centre is providing quality eye care in and around Delhi since then. Dr. Seth organized the 3-Tier eye care network, to bring the advantages of sophisticated ophthalmology within the reach of the common man. Before his death on 29th Jan. 1996, Dr. Seth gave his team the roadmap to VENU's further development and growth.

Venu was his dream and his mission. It is now our effort to sustain, expand and improve this mission of serving the underprivileged with the best that modern eye care can offer.

Venu Eye Institute & Research Centre

Venu Charitable Society is a not for profit, voluntary organization engaged in providing curative, preventive and rehabilitative eye care in and around Delhi for 30 years. Founded by Late Dr. R.K. Seth, Venu Charitable Society's mandate is to take eye care to the needy at their doorstep, the majority of whom live below the poverty line in the urban slums and in the rural areas of India through a three-tier eye care network.

The network comprises of 5 vision centers, 3 surgical centers and 5 secondary level satellite hospitals. Venu Eye Institute & Research Centre, New Delhi Institute & Research Centre, a unit of Venu Charitable Society, is a modern, state-of-the art hospital located in New Delhi. It is the tertiary level of the organization. The Institute's thrust areas are:

- Comprehensive Eye Care
- Education and Training
- Clinical Research
- Community Ophthalmology
- Rehabilitative Services
- Teleophthalmology
- Vision Centers

CLINICAL SERVICES

Cataract

Small Incision Cataract Surgery
Customized IOLs
Phacoemulsification
Yag Capsulotomy

Cornea

Corneal Transplantation
Infections and Ulcers
Phakic Intra Ocular Lenses

Glaucoma

Advance filtering Surgery
Congenital Glaucoma Surgery
Glaucoma Drainage Devices
Laser Procedures

Vitreo- Retina

Vitreo -Retinal Surgeries
Vitreous Surgery
Diabetic Retinopathy
Paediatric Retina
Laser Procedures

Diagnostics

Humphrey Field Analyser
Optical Coherence Tomography (OCT)
Fundus Fluroechein Angiography
Ultrasonography

Children's Eye Care

Examination under Anesthesia
Retinopathy of Prematurity
Paediatric Cataract
Paediatric Glaucoma

Uveitis & Ocular Immunology**Ophthalmic Plastic Surgery, Orbit & Ocular Oncology****Ocular Prosthesis/Artificial Eyes****Strabismus****Contact Lenses****Low Vision****Vision Rehabilitation****General Physician Services****Teaching Facilities**

State of the art classrooms
Audio visual systems
Individual computers with Broad Band Internet facility
Well equipped library (books, slides, audio-visual tapes & C.D. ROMs) (Wi- Fi)
State of the art Teaching & Training – Operation Theatres & wet labs
Well organized outreach-camps
General OPD and Speciality Clinics / Physician / Anaesthetist

Hostel & Mess Facility

Non-A.C. accommodation on share basis & mess (on campus mess) may be provided to the candidates on payment as per rules & availability.

Courses Available

A. Medical Teaching Programmes

1. DNB (Primary) – 3 yrs
2. DNB (Tutor) – 2 yrs

B. Medical Training Programmes

I. Long term

- a. Intensive IOL Fellowship – 1 ½ yrs
- b. Oculoplasty – 2 yrs
- c. Glaucoma- 2 yrs
- d. Vitreo- Retina Fellowship- 2 ½ Yrs
- e. Comprehensive Ophthalmology Fellowship – 2 yrs
- f. Cornea & Refractive Surgery Fellowship- 2 yrs

II. Short term

- a. ECCE with IOL Implantation -1 month
- b. Small Incision Cataract Surgery – 1 month
- c. Phacoemulsification – 1 month
- d. Advanced Phacoemulsification – 1 Month / 2 weeks
- e. Medical Glaucoma – 2 month
- f. Medical Retina – 2 months

C. Paramedical Teaching Programmes

1. Fellowship in Optometry – 1 year / 2 years
2. Optometry Internship-1 year

D. Workshop (periodical)

1. Low Vision – 3 days
2. Contact Lens – 3 days

E. Paramedical Training Programmes

1. Eye Bank Technician – 3 months
2. Eye Donation Counsellor – 1 month
3. Refresher course in Optometry / Orthoptics – 15 days

3. Instrument Maintenance – 6 weeks

F. Observerships

1. Eye Bank Observership for senior cadres / medical director / programme managers – 1 week
2. Eye Bank Observership for Eye Bank Managers – 1 week

G. Customized / Tailor made Courses

1. Foreign graduate observation programmes – 1 week / 1 month

*Medical
Teaching Programmes*

Diplomat of National Board (DNB) – Primary

Eligibility	MBBS & Primary / CET Cleared
Selection	As per NBE Guidelines
Seats	3
Session	July or As per seat allocated by NBE
Duration	3 years (full time)
Fee	70,000 per year
Stipend	21,000/- per month + Free Mess + Shared accommodation

Faculty

- In house Consultants, Medical Officers, Senior Residents and Tutors
- Visiting consultants
- Guest faculty

Clinical Training Profile

Training in OPD / Special clinics/ /Wards/Operation theatre / Outreach clinics / Surgical camps

DNB 1 st Year	DNB 2 nd Year	DNB 3 rd Year
1. Orientation- nonclinical 2. Outreach / Camps / Satellites 3. OPD (Pvt. / Sub. OPD)& IPD 4. Diagnostics 5. Refraction 6. Sub. OPD 7. Ward 8. Outreach 9. Revision Refraction 10. Revision Diagnostics 11. Subspecialty Orientation 12. Subspecialty Orientation	Sub. OPD VR/PO Glaucoma / Cornea	PVT OPD VR Paeds /Strabismus

- 1st 3 months no actual independent OPD work - Vision / Retinoscopy / Refraction / OT Observation
- 3rd to 6th month- OT Assist / Sub OPD
- 1st year-2nd half-Maximise use as assistant in ward /outreach/night duties
- 2nd year-1st half-independent Sub OPD but does not dispose cases / Surgical training
- 2nd year-2nd half-may dispose Sub. OPD cases /Private OPD Begin/ independent ward & night duties / Sub specialties posting
- 3rd year-1st half-independent work in Sub. OPD/ Pvt OPD & begin ward/night duties
- 3rd year-2nd half –no outreach postings.

Academic Schedule/ Course content

- Seminars /Journal clubs / Case presentation/Group discussion/ Quiz every twice a month.
- CMEs & Didactic lectures by the faculty.

- Conferences: exposure & participation in state/national level Ophthalmology conferences
- Publications: In house, National & International Ophthalmology journals.
- Thesis : as per NBE Guidelines

Surgical Exposure

- ECCE training at 7th month
- ECCE evaluation at end of 1st year
- SICS training at 13th month
- SICS evaluation at end of 2nd year
- Phaco training at 25th month
- Sub specialty surgical exposure as per OT posting
***If the candidate does not clear evaluation, he/she would be reevaluated next month**

Hospital Postings (OPD)

- a) Outreach screening/diagnostic camps (including postings on Sundays & holidays)
- b) The DNB Residents will be posted along with other resident doctors on night duties & ward duties (including postings on Sundays & holidays).
- c) The DNB Residents will be posted along with other resident doctors on eye donation call duties (including postings on Sundays & holidays).
- d) Satellite hospital postings - need & capacity based.

Evaluation & Appraisal

Regular academic & clinical skills evaluations & appraisals will be conducted to monitor the candidates' progress. The candidate will be required to appear for the periodic academic & clinical assessment programs as laid down according to NBE Guidelines.

Leave rules

- 1 Casual Leave/ Month
- The candidate will not be eligible to compensatory leave in lieu of work done on Sunday or holiday.

Academic leaves

- As per the guidelines issued by the National Board of Examinations

Diplomat of National Board (DNB) – Tutor

Eligibility	DOMS
Selection	As per NBE Guidelines
Seats	3
Session	July or as per seat allocated by NBE
Duration	2 years (full time)
Fee	70,000 per year
Stipend	22,000/- per month + Free Mess + Shared accommodation

Faculty

***MEDICAL
TRAINING PROGRAMMES

LONG TERM***

Development of course (Input and Planning)

For Intensive IOL Fellowship

Eligibility	MS/DNB/DOMS
Selection	Interview / Three days observation prior to full time fellowship programme, selection will be done based on performance
Seats	6
Session	Every year
Duration	18 months (full time)
Fee	Nil
Stipend	1 st Year – Rs. 22,000 / per month, 2 nd Year – Rs. 25,000/ per month, Free mess + shared accommodation*
Leave rules	1 Casual Leave/ Month

* Subject to availability

Aim of the Training:

There is an urgent need for a focused Cataract surgery training course. The VEIRC provides an appropriate mix of General & Sub-specialty training in Ophthalmology, which will be added as limited rotation postings to this course thus providing an added advantage.

Academic schedule-

- a) Seminars /Journal clubs / Case presentations/Group discussions & Quiz twice a month.
- b) CMEs & Didactic lectures by the faculty.
- c) Cataract-centric classes by Cataract Unit (at present can be integrated with classes for cataract surgery trainees)
- d) Exposure and participation in national/international Ophthalmology Conferences
- e) Publications: in In-house, National & International Ophthalmology journals.

One Research topic for dissertation & an aim for one paper presentation at a conference is mandatory.

Faculty

- In house Consultants, Medical Officers, Senior Residents and Tutors
- Visiting consultants
- Guest faculty

Hospital Postings (OPD)-

- 1) Outreach screening/diagnostic camps (including postings on Sundays & holidays)
- 2) The Fellow will be posted along with other resident doctors on night duties & ward duties (including postings on Sundays & holidays).

- 3) The Fellow will be posted along with other resident doctors on eye donation call duties (including postings on Sundays & holidays).
- 4) Satellite hospital postings 3-6 months / need & capacity based.

Surgical Exposure

The fellow's surgical training will be under the direct supervision of the Cataract unit/department, which will schedule a supervisor consultant for the course, who will in turn ensure monitoring of the surgical skills and subsequent up gradation of the fellow.

Hands on surgical training will be conducted as follows, in 3 phases of 6 months each:

1st phase:

1 st month	- Wet Lab / observation
2 nd month	- ECCE training
3 rd to 5 th months	- ECCE
3 rd /4 th week of 5 th month	- ECCE evaluation

2nd phase:

6 th month	- SICS training
7 th to 11 th months	- SICS/ ECCE
3 rd /4 th week of 11 th month	- SICS evaluation

3rd phase:

12 th month	- Phaco training
13 th to 18 th months	- Phaco/SICS/ECCE

All the above skill upgradation will be considered only on the basis of Evaluator's recommendation

To ensure a steady number of surgical cases for training the fellow will be posted to the OT at least once in a week at the base, in case of outreach postings away from the base hospital will be posted at least 2-3 times a week.

It will be the responsibility of the supervisor & in turn the Cataract department to ensure a minimum quantity of surgical training as well as to set a minimum standard in the quality by ensuring constant monitoring & evaluation.

Evaluation & Appraisal

Regular academic & clinical skills evaluations & appraisals will be conducted to monitor the candidates' progress. The candidate will be required to appear for the periodic academic & clinical assessment programs for the resident doctors, ***every 3 months with the completion of their log book***, in the Institute. Their performance in these assessments will be considered at the time of award of fellowship completion certificate.

The Selected candidates would be required to submit the following certificates for verification by the Institute at the time of joining of the training programme. The candidates will have to sign an undertaking / bond to the effect that he / she will complete the fellowship without any break and in the event of his / her abandoning / leaving the training programme before completion and / or failing to complete the prescribed period of training he / she shall be liable to pay Rs. 100,000/- as damages to the Institute.

- 1. MBBS Degree Certificate*
- 2. MCI Registration / State Council Registration Certificate*
- 3. PG-MS/DNB or DOMS certificate, whichever applicable*

These documents will be remain in the safe custody of Personnel Department and will returned after completion of the course

Change in Course:

Any change in the course shall be done based on any input by the course designing team from time to time. The basic criteria for change shall be the change in the Ophthalmology procedure (National or International)

Stage Verification:

Stage wise verification shall be done by in charge guide from time to time as defined in the procedure and report of verification shall be mentioned in the logbook.

Validation of Course:

In house Validation of course shall be finally done by MS & Joint Director and Certificate shall be issued by Venu Eye Institute & Research Centre after successful completion of the course and signed by the Medical Superintendent in the format No. VEI/ DOE/ACADEMIC YEAR/CERTIFICATE NUMBER

**Development of course
(Input and Planning)
For Fellowship - Oculoplasty**

Eligibility	MS/DNB/DOMS
Selection	Interview / Three days observation prior to full time fellowship programme, selection will be done based on performance
Seat	1
Session	Every year
Duration	2 years (full time)
Fee	Nil
Stipend	1 st year – Rs. 22,000/ per month 2 nd year – Rs. 25,000/per month, free mess + shared accommodation*
Leave rules	1 Casual Leave/ Month

* Subject to availability

Aim of the Training:

Oculoplasty surgery is an upcoming subspecialty of ophthalmology. With changes in recent trends, Venu Eye Institute & Research Centre would endeavor to meet this need.

Academic schedule-

- a) Seminars /Journal clubs / Case presentations/Group discussions & Quiz every twice a month.
- b) CMEs & Didactic lectures by the faculty.
- c) Oculoplasty classes by Oculoplasty Unit
- d) Exposure and participation in national/international Ophthalmology Conferences
- e) Publications: in In-house, National & International Ophthalmology journals.

One Research topic for dissertation & an aim for one paper presentation at a conference is mandatory

Faculty

- In house Consultants, Medical Officers
- Visiting consultants
- Guest faculty

Hospital Postings (OPD)

- 1) The Fellow will be posted along with other resident doctors on night duties & ward duties (including postings on Sundays & holidays).
- 2) The Fellow will be posted along with other resident doctors on eye donation call duties (including postings on Sundays & holidays).
- 3) Satellite hospital postings 3-6 months / need & capacity based.
- 4) ***All post op rounds to be done by fellows in all cases of their specialities***

Schedule for screening camps

- Outreach screening / diagnostic camps (including postings on Sundays & holidays).

Surgical Exposure

Oculoplasty Surgery-Learning Targets:

Observation/assistance/hands on

1. Lid Surgery

- Entropion
- Ectropion
- Ptosis (Levator / Sling)
 - Congenital
 - Acquired
- Misc lid surgery
 - Blepharoplasty
 - Lid retraction surgery
 - Tarsorrhaphy – permanent and temporary
 - Electrolysis
 - Lid reconstructions (Eyelid defects-Congenital, acquired)
 - Canthal reconstruction

2. Lacrimal Surgery

- Punctoplasty
- Sac surgery
- DCT
- DCR
 - Primary DCR (Adults)
 - Failed DCR
 - Mucocoele
 - Complicated DCR(CCB)
 - Paediatric DCR
 - Intubation DCR
- Lacrimal fistulectomy
- Syringing & Probing

3. Socket surgery

- Contracted Socket (Congenital,Acquired)
 - Fornix formation
 - MMG
 - AMG
- Evisceration with ball implant
- Enucleation with ball implant

4. Trauma management

- Repair of lid lacerations
- Canalicular intubation

5. Ocular surface disorder management

- Symblepharon release& fornix formation with AMG
- Conjunctival cyst excision

6. Ocular tumors

- Lid tumor/growth excision biopsy with lid reconstruction
- Dermoid cyst excision

7. Misc

- Canthoplasty
- Y-V plasty
- Blepharophimosis correction
- Botox injections for twitches
- Skin Grafting

Fellowship is to be divided in 6 phases of 4 months each.

1st Phase (1st to 4th months)

(Needs to be closely monitored during this period)

1st Month:

- Working in subsidized OPD.
- Routine patient.-work-up.
- Orientation for Oculoplasty Screening

2nd Month:

- OT observation
- Working up of all Oculoplasty patients in subsidized OPD.
- Basic Procedures
- Syringing
- Epilations
- Suture Removal

3rd Month:

- Beginning of 3rd month- ECCE training
- OPD- work up of all charity patients
- Basic oculoplasty procedures

4th month:

- Charity OPD workup
- Management ↓ Observation of oculoplasmy cases
- OT observation of oculoplasty cases

2nd Phase :(5th to 8th months)

- 7th month- ECCE evaluation
- 8th month – SICS training
- OPD- work up
- Assisting Cases
 - DCT
 - DCR
 - Lid Surgery
 - Ectropion
 - Entropion

3rd Phase:(9th to 12th months)

- Sac Surgeries under supervision
- Ectropion & Entropion surgeries under supervision
- OPD workup

4th Phase:(13th to 16th months)

- 14th month- SICS evaluation
- 15th month – Phaco training
- Independent Sac Surgeries
- Independent Ectropion & Entropion
- Step wise Ptosis Surgery
- Step wise fornix formation Ptosis Surgeries

5th Phase(17th to 20th months)

- Fornix formation
- Canthal reconstruction
- Independent OPD management

6th Phase (20th to 24th months)

- Orbital surgeries
- Independent OPD management
- Independent OT

In addition to the training for Oculoplasty surgeries, the candidates may also be trained in ECCE & SICS with IOL only as per the protocol of the Institute.

Evaluation & Appraisal

Regular academic & clinical skills evaluations & appraisals will be conducted to monitor the candidates' progress. The candidate will be required to appear for the periodic academic & clinical assessment programs for the resident doctors, **every 3 months with completion of their log book** in the *Institute*. Their performance in these assessments will be considered at the time of award of fellowship completion certificate.

The Selected candidates would be required to submit the following certificates for verification by the Institute at the time of joining of the training programme. The candidates will have to sign an undertaking / bond to the effect that he / she will complete the fellowship without any break and in the event of his / her abandoning / leaving the training programme before completion and / or failing to complete the prescribed period of training he / she shall be liable to pay Rs. 100,000/- as damages to the Institute.

- 1. MBBS Degree Certificate*
- 2. MCI Registration / State Council Registration Certificate*
- 3. PG-MS/DNB or DOMS certificate, whichever applicable*

These documents will be remain in the safe custody of Personnel Department and will returned after completion of the course

Change in Course:

Any change in the course shall be done based on any input by the course designing team from time to time. The basic criteria for change shall be the change in the Ophthalmology procedure (National or International)

**Development of course
(Input and Planning)
For Glaucoma Fellowship**

Eligibility	MS/DNB/DOMS
Selection	Interview / Three days observation prior to full time fellowship programme, selection will be done based on performance
Seat	2
Session	Every year
Duration	2 years (full time)
Fee	Nil
Stipend	1 st year – Rs. 22,000/- per month 2 nd year – Rs. 25,000/- per month, free mess & shared accommodation *
Leave rules	1 Casual Leave/ Month

*Subject to availability

Aim of the Training:

Glaucoma is going to be a major global cause of progressive irreversible blindness. Training of human resource in this field will help in better management of these patients. Also, it will create awareness of Glaucoma in patients who come for a routine screening.

Academic schedule-

- a. Seminars /Journal clubs / Case presentations/Group discussions & Quizzes twice a month.
- b. CMEs & Didactic lectures by the faculty.
- c. Glaucoma classes by Glaucoma Unit
- d. Exposure and participation in national/international Ophthalmology Conferences
- e. Publications: in In-house, National & International Ophthalmology journals.

One Research topic for dissertation & an aim for one paper presentation at a conference is mandatory.

Faculty

- In house Consultants, Medical Officers
- Visiting consultants
- Guest faculty

Hospital Postings (OPD)

- 1) The Fellow will be posted along with other resident doctors on night duties & ward duties (including postings on Sundays & holidays).
- 2) The Fellow will be posted along with other resident doctors on eye donation call duties (including postings on Sundays & holidays).
- 3) Satellite hospital postings 3-6 months / need & capacity based.
- 4) ***All post op rounds to be done by fellows in all cases of their specialities***

Schedule for Posting in Glaucoma screening camps

- Outreach screening / diagnostic camps (including postings on Sundays & holidays).

Surgical Exposure

The fellow's surgical training will be under the direct supervision of the Glaucoma unit/department, which will schedule a supervisor consultant for the course, who will in turn ensure monitoring of the surgical skills and subsequent up gradation of the fellow.

Hands on surgical training will be conducted as follows:

During the fellowship, a candidate will be trained in

- EUA
- Yag Lasers
- Trabelculotomy/ Trabeculectomy
- Combined Surgeries
- Glaucoma Shunt Surgeries

Fellowship is to be divided in 6 phases of 4 months each.

1st Phase (1st 4 months)

(Needs to be closely monitored during this period)

1st Month:

- Working in subsidized OPD.
- Routine patient.-work-up.
- Applanation technique.

2nd Month:

- Orientation for Glaucoma Screening
- Applanation Tonometry
- Working up of all Glaucoma patients in subsidized OPD
- OT observation
- Wet lab posting

3rd Month:

- ECCE training
- OPD- work up .
- HVF & OCT posting
- Gonioscopy with observation.

4th month:

- Disc findings with drawings.
- Observe glaucoma surgeries
- Subsidized OPD patients

2nd Phase: (5th to 8th months)

- Posting in private OPD
- OCT / HVF posting
- Fundus photographs.
- O.T. to observe/assist Glaucoma surgeries.
- Observe Lasers.
- Independent AT/Gonioscopy/ disc drawing in all patients
- 7th month – ECCE evaluation
- Beginning of 8th month- SICS training

3rd Phase: (9th to 12th months)

- Independent work-up of patients.
- Management ↓ Observation
- Perform AT / Gonioscopy.
- Learn Laser ↓ Observation.

Surgical Training:

Steps of glaucoma surgery example:-

- Flap with suturing
- Punch

4th Phase (13th to 16th months)

Surgical Training:

- Give 5-6 (or more depending on patient numbers) combined surgeries.
- Lasers
- 14th month – SICS evaluation
- Beginning of 15th month – Phaco training

5th Phase (17th to 20th months)

- Trabeculectomy surgery independently
- Lasers
- Independently manage glaucoma patients in charity OPD

6th Phase (21st to 24th months)

- Combined surgeries
- Lasers

Exposure through Demo during the tenure on :

- ✓ GDX
- ✓ HRT
- ✓ UBM

In addition to the training for Glaucoma surgeries, the candidates may also be trained in ECCE , SICS and Phacoemulsification with IOL only as per the protocol of the Institute.

Evaluation & Appraisal

- Regular academic & clinical skill evaluations & appraisals will be conducted to monitor the candidates' progress. The candidate will be required to appear for the periodic academic & clinical assessment programs for the resident doctors, **every 3 months with completion of log book** in the Institute. Their performance in these assessments will be considered at the time of award of fellowship completion certificate.

The Selected candidates would be required to submit the following certificates for verification by the Institute at the time of joining of the training programme. The candidates will have to sign an undertaking / bond to the effect that he / she will complete the fellowship without any break and in the event of his / her abandoning / leaving the training programme before completion and / or failing to complete the prescribed period of training he / she shall be liable to pay Rs. 100,000/- as damages to the Institute.

1. *MBBS Degree Certificate*
2. *MCI Registration / State Council Registration Certificate*
3. *PG-MS/DNB or DOMS certificate, whichever applicable*

These documents will be remain in the safe custody of Personnel Department and will returned after completion of the course

Change in Course:

Any change in the course shall be done based on any input by the course designing team from time to time. The basic criteria for change shall be the change in the Ophthalmology procedure (National or International)

Stage Verification:

Stage wise verification shall be done by in charge guide from time to time as defined in the procedure and report of verification shall be mentioned in the logbook.

Validation of Course :

In house Validation of course shall be finally done by MS & Joint Director and Certificate shall be issued by Venu Eye Institute & Research Centre after successful completion of the course and signed by the Medical Superintendent in the format No. VEI/ DOE/ACADEMIC YEAR/CERTIFICATE NUMBER

**Development of course
(Input and Planning)
Fellowship: Vitreo - Retina**

Eligibility	MS/DNB/DOMS
Selection	Interview / six months of comprehensive ophthalmology training including basic cataract surgeries (ECCE and SICS) prior to full time fellowship programme. Selection will be done based on performance
Seats	2
Session	Every year
Duration	2 ½ years (full time)
Fee	Nil
Stipend	1 st year Rs. 22,000/ per month ,2 nd year Rs. 25,000/ per month 3 rd year Rs. 30,000/ per month, Free mess + Free shared accommodation*
Leave rules	1 Casual Leave/ Month

- Subject to availability

Aim of the Training:

To train ophthalmologists in the field of vitreo-retina, i.e diagnostics and medical and surgical retina, including all current vitreo-retinal and surgical procedures so that they can help in better management problems like Diabetic Retinopathy, Vascular disorders, ARMD etc: which are one of the leading causes of worldwide blindness

Academic schedule

- Seminars /Journal clubs / Case presentations/Group discussions & Quiz twice a month.
- CMEs & Didactic lectures by the faculty.
- VR classes by VR Unit
- Training in all types of lasers
- Exposure and participation in national/international Ophthalmology Conferences
- Publications: in In-house, National & International Ophthalmology journals.
- Surgical training for management of Retinal Pathologies.

One Research topic for dissertation & an aim for one paper presentation at a conference is mandatory.

Faculty

- In house Consultants, Medical Officers
- Visiting consultants
- Guest faculty

Training Exposure

Dedicated training to make the VR Fellow well versed with :

- Aspects of medical retina which include:

- Indirect ophthalmology
- Slit lamp biomicroscopy
- Diagnosis of medical & surgical problems of retina
- Green laser techniques (S/L & LIO)
- Vitreoretinal surgeries like PPV, Buckling procedures for R.D.

Fellowship is to be divided in 10 phases of 3 months each.

1st Phase

Charity workup of all patients
Slit Lamp examination
Indirect / 90 D examination

2nd Phase

Charity workup of all patients
Slit lamp examination
Indirect/90 D examination

3rd Phase

Examination of charity patients, FFA, OCT, B-Scan

4th Phase

Laser (PRP), OPD Screening
All diagnostic procedures

5th Phase

OT Observation of vitreo-retinal procedures
Step of Surgeries under Guides, Lasers

6th Phase

Focal Lasers
Vitreoretinal procedures

7th Phase

Independent OPD with minor cases
Vitreoretinal surgeries

8th Phase

Independent OPD
Major Cases under supervision

9th Phase

Independent OPD
Independent Laser procedures

10th Phase

Surgery under observation

Hospital Postings (OPD)

- 1) Outreach screening/diagnostic camps (including postings on Sundays & holidays)

- 2) The Fellow will be posted along with other resident doctors on night duties & ward duties (including postings on Sundays & holidays).
- 3) The Fellow will be posted along with other resident doctors on eye donation call duties (including postings on Sundays & holidays).
- 4) Satellite hospital postings - need & capacity based.
- 5) *All post op rounds to be done by fellows in all cases of their specialties*

Evaluation & Appraisal

Regular academic & clinical skills evaluations & appraisals will be conducted to monitor the candidates' progress. The candidate will be required to appear for the periodic academic & clinical assessment programs for the resident doctors **every 3 months with completion of log book**, in the institute. Their performance in these assessments will be considered at the time of award of fellowship completion certificate.

The Selected candidates would be required to submit the following certificates for verification by the Institute at the time of joining of the training programme. The candidates will have to sign an undertaking / bond to the effect that he / she will complete the fellowship without any break and in the event of his / her abandoning / leaving the training programme before completion and / or failing to complete the prescribed period of training he / she shall be liable to pay Rs. 100,000/- as damages to the Institute.

1. *MBBS Degree Certificate*
2. *MCI Registration / State Council Registration Certificate*
3. *PG-MS/DNB or DOMS certificate, whichever applicable*

These documents will be remain in the safe custody of Personnel Department and will returned after completion of the course

Change in course

Any change in the course shall be done based on any input by the course designing team from time to time. The basic criteria for change shall be the change in the Ophthalmology procedure (National or International)

Stage Verification:

Stage wise verification shall be done by in charge guide from time to time as defined in the procedure and report of verification shall be mentioned in the logbook.

Validation of Course :

In house Validation of course shall be finally done by MS & Joint Director and Certificate shall be issued by Venu Eye Institute & Research Centre after successful completion of the course and signed by the Medical Superintendent in the format No. VEI/ DOE/ACADEMIC YEAR/CERTIFICATE NUMBER

**Development of course
(Input and Planning)
Fellowship - Comprehensive Ophthalmology**

Eligibility	MS/DNB/DOMS
Selection	Interview / One week observation prior to full time fellowship programme, selection will be done based on performance
Seats	2
Session	Every year
Duration	2 years (full time)
Fee	Nil
Stipend	1 st year - Rs. 22,000/ month 2 nd year – Rs. 25,000/ month, Free mess + free shared accommodation*
Leave rules	1 Casual Leave/ Month

- **Subject to availability**

Aim of the program

To give a dedicated training in Comprehensive Ophthalmology, with special emphasis on all sub-specialties in general, and an intensive training in the sub-specialty of the candidate's choice.

Academic Schedule

- Seminars /Journal clubs / Case presentation/Group discussion/ Quiz twice a month
- CMEs & Didactic lectures by the faculty.
- Conferences: exposure & participation in state/national level Ophthalmology conferences
- Publications: In house, National & International Ophthalmology journals.

Two Research topics for dissertation & an aim for one paper presentation at a conference is mandatory.

Faculty

- In house Consultants, Senior Residents and Tutors.
- Visiting consultants.
- Guest faculty.

Clinical Training Profile

1st Year

The candidate will be trained in General Ophthalmology in the 1st year of the fellowship, by rotation postings in the hospital, as well as outreach postings outside.

- 1-2nd month – Observation
- 3rd Month – Wet lab postings / observation
- 4th Month ECCE
- 6th Month ECCE Evaluation
- 7- 15 Month – SICS
- 9th Month – Mid term SICS Evaluation
- 15th Month – Final SICS Evaluation & upgradation to Phaco

All the above skill upgradation will be considered only on the basis of Evaluator’s recommendation

2nd Year

The 2nd year of the fellowship will be dedicated to sub-specialty training in which the candidate will be posted in various departments as an observer; initially by rotation postings of 1 month each (except for Vitreo-Retina in which the candidate will be posted as a Medical Retina Trainee with suitable hands on training in the various diagnostic modalities of Vitreo-Retina along with hands on training in the various laser applications in Vitreo-Retina.

The candidate will be undergoing surgical upgradation in Cataract surgery simultaneous to the sub-specialty training in the 2nd year also.

In the last 6 months of the training the candidate will be offered a dedicated training (including surgical training) in the Sub-Specialty of the candidates’ choice.

The candidate will not be posted on outreach postings in the 2nd year of the training owing to the proposed dedicated sub-specialty training in that year.

2nd Year	Sub-specialty Posting	Surgical postings
Month	Department	Cataract Surgery only
1	Medical Retina	
2		
3		
4	Paediatric Ophthalmology & Strabismus	
5	Cornea & Refractive services	
6	Orbit & Ocuolplasty	
7	Glaucoma services	Phacoemulsification + PCIOL
8	Dedicated Training in the Sub-Specialty of choice for 5 + 1 months	
9		
10		
11		
12		

Hospital Postings (OPD)

- 1) Outreach screening/diagnostic camps (including postings on Sundays & holidays)

- 2) The Fellow will be posted along with other resident doctors on night duties & ward duties (including postings on Sundays & holidays).
- 3) The Fellow will be posted along with other resident doctors on eye donation calls duties (including postings on Sundays & holidays).
- 4) Satellite hospital postings 6-8 months - need & capacity based.

Evaluation & Appraisal

Regular academic & clinical skills evaluations & appraisals will be conducted to monitor the candidates' progress. The candidate will be required to appear for the periodic academic & clinical assessment programs for the resident doctors, ***every 3 month with completion of their log book*** in the Institute. Their performance in these assessments will be considered at the time of award of fellowship completion certificate.

The Selected candidates would be required to submit the following certificates for verification by the Institute at the time of joining of the training programme. The candidates will have to sign an undertaking / bond to the effect that he / she will complete the fellowship without any break and in the event of his / her abandoning / leaving the training programme before completion and / or failing to complete the prescribed period of training he / she shall be liable to pay Rs. 100,000/- as damages to the Institute.

1. ***MBBS Degree Certificate***
2. ***MCI Registration / State Council Registration Certificate***
3. ***PG-MS/DNB or DOMS certificate, whichever applicable***

These documents will be remain in the safe custody of Personnel Department and will returned after completion of the course

Change in Course:

Any change in the course shall be done based on any input by the course designing team from time to time. The basic criteria for change shall be the change in the Ophthalmology procedure (National or International)

Validation of Course:

In house Validation of course shall be finally done by MS & Joint Director and Certificate shall be issued by Venu Eye Institute & Research Centre after successful completion of the course and signed by the Medical Superintendent in the format No. VEI/ DOE/ACADEMIC YEAR/CERTIFICATE NUMBER

**Development of course
(Input and Planning)
Fellowship: Cornea and Refractive surgery**

Eligibility	MS/DNB/DOMS
Selection	Interview / 3 days of observation prior to full time fellowship programme, selection will be done based on performance
Seats	2
Session	Every year
Duration	2 years (full time)
Fee	Nil
Stipend	1 st year – Rs. 22,000/- per month 2 nd year – Rs. 25,000 /- per month Free mess & Shared accommodation*
Leave rules	1 Casual Leave/ Month

* Subject to availability

Aim of the Training:

The aim of this program is to train ophthalmologists in the diagnosis, treatment and surgery of corneal diseases. They would also be competent in the field of refractive surgery including Lasik. The candidates would also be actively involved in Eye banking activities.

Academic schedule-

- Seminars /Journal clubs / Case presentations/Group discussions twice a month.
- CMEs & Didactic lectures by the faculty.
- Cornea and refractive surgery classes by Cornea and refractive surgery unit.
- Exposure and participation in national/international Ophthalmology Conferences
- Publications: in In-house, National & International Ophthalmology journals.

Faculty

- In house Consultants, Medical Officers
- Visiting consultants
- Guest faculty

Hospital Postings (OPD)

- 1) Outreach screening/diagnostic camps (including postings on Sundays & holidays)
- 2) The Fellow will be posted along with other resident doctors on night duties & ward duties (including postings on Sundays & holidays).
- 3) Eye donation awareness programmes
- 4) Satellite hospital postings - need & capacity based.
- 5) *All post op rounds to be done by fellows in all cases of their specialties*
- 6) Fellow should be actively involved in screening patients for refractive surgery and transplantation from charity OPD/Satellite/Camps.

Schedule for Posting in Cornea screening camps

- Outreach screening / diagnostic camps (including postings on Sundays & holidays).

Fellowship is to be divided in 4 phases of 6 months each.

Ist Phase (1st to 6th months)

Charity workup for all patients
Slit Lamp examination
Work up & Documentation of cornea pts
Corneal & anterior segment photography
Corneal scrapings
OPD minor procedures e.g suture removal
2nd month- OT observation
3rd month – ECCE training
4th month onwards - TA + BCL
 Corneal tear repair
 AC reformation + TABCL
 Pterygium
 Wet lab training for PK

2nd Phase (7th to 12th months)

Wet lab training for Lasik/PRK/DSEK/DALK/DMEK
Interpretation of cornea investigations
Eye banking
Refractive surgery evaluation and topography
7th month- ECCE evaluation
8th month - SICS training
 AMG, Dry eye surgical management
 C3R
 Therapeutic PK: progress to Optical PK
 Observation in LASIK OT
 Managing charity patients independently
 Minor OT procedures
 Research work

3rd Phase (13th to 18th months)

Independent OT under supervision
Independent OPD
Research work
14th month – SICS evaluation
15th month – Phaco training
 Optical PK, Triple procedure, complicated cases
 Patch graft
 PRK

4th Phase (19th to 24th months)

Independent OPD
Independent OT
Orientation towards Lasik
Advanced phacoemulsification, Toric and multifocal IOLs
Patch graft
LASIK

In addition to the training for Cornea and refractive surgeries, the candidates may also be trained in ECCE , SICS and Phaco with IOL only as per the protocol of the Institute.

Evaluation & Appraisal

Regular academic & clinical skills evaluations & appraisals will be conducted to monitor the candidates' progress. The candidate will be required to appear for the periodic academic & clinical assessment programs for the resident doctors **every 3 months with completion of log book**, in the institute. Their performance in these assessments will be considered at the time of award of fellowship completion certificate.

The Selected candidates would be required to submit the following certificates for verification by the Institute at the time of joining of the training programme. ***MEDICAL
TRAINING PROGRAMMES
SHORT TERM***

Development of course (Input and Planning)

ECCE with IOL implantation

- Eligibility : MS/DOMS / DNB
- Selection : Application/Nomination (as per availability)
- Seats : 2
- Session : 1st of every month
- Course duration : 1 month
- Fee : Rs. 30,000/-
- Stipend : Nil
- Leave Rules : as per request & grant
-

Faculty

- In house Consultants, Medical Officer, Senior Residents, Tutors, Fellows
- Evaluation- Observation & log book

Course Content & Methodology

- 1st Day of training –Observation & Orientation
- 2nd day – ECCE training to begin
- Wet lab training.
- Special Classes.
- Course material / handouts.
- Observe/assist / perform surgeries (15) may be more on individuals skill based.
- Pre & post operative evaluation.
- Access to videos / library / regular classes.
- To maintain a log book.

Kindly follow the guidelines strictly. Otherwise cancellation of course duration may occur any time during the period.

Change in Course:

Development of course (Input and Planning)

Medical Glaucoma

Eligibility	MS/DNB/DOMS
Selection	Application / Nomination
Seat	1
Session	Bimonthly
Duration	2 months
Fee	Rs. 30,000
Stipend	Nil
Leave rules	--

Aim of the Training:

Glaucoma is one of the major global cause of progressive irreversible blindness. Training of human resource in this field will help in better management of these patients. Also, it will create awareness of Glaucoma in patients who come for a routine screening.

1. Slot per Year: 6
2. Course commences: Bimonthly

Academic schedule-

- a) Seminars /Journal clubs / Case presentations/Group discussions & Quizes.
- b) CMEs & Didactic lectures by the faculty.
- c) Glaucoma classes by Glaucoma Unit

Faculty

- In house Consultants
- Long term Fellow
- Visiting consultants
- Guest faculty

During the fellowship, a candidate will be trained in

- Basic work-up of Glaucoma patient including
 - Applanation
 - Gonioscopy
- Learning investigative & diagnostic Procedures including
 - OCT
 - HVF
 - Pachymetry
- Disc photographs
- Medical management

Training Programme

(Needs to be closely monitored during this period)

1st Week:

- Working in subsidized OPD.
- Routine patient.-work-up.
- GAT
- Gonioscopy observation.
- Disc findings with drawings.

3rd Week

- Working up of Glaucoma Patients
- Independent AT/Gonioscopy
- Pachymetry (CCT)

5rd Week

- Posting in private OPD
- Learn OCT / HVF
- Fundus photographs.

7th Week

- Medical Management
- Observe Lasers.
- O.T. observation, including Block & Record.
- O.T. to observe/assist. Glaucoma surgeries

Evaluation & Appraisal

- Regular academic & clinical skill evaluations & appraisals will be conducted to monitor the candidates' progress. The candidate will be required to appear for the periodic academic & clinical assessment programs for the resident doctors, in the institute. Their performance in these assessments will be considered at the time of award of fellowship completion certificate.

Change in Course:

Any change in the course shall be done based on any input by the course designing team from time to time. The basic criteria for change shall be the change in the Ophthalmology procedure (National or International)

Stage Verification:

Stage wise verification shall be done by in charge guide from time to time as defined in the procedure and report of verification shall be mentioned in the logbook.

Validation of Course :

In house Validation of course shall be finally done by MS & Joint Director and Certificate shall be issued by Venu Eye Institute & Research Centre after successful completion of the course and signed by the Medical Superintendent in the format No. VEI/ DOE/ACADEMIC YEAR/CERTIFICATE NUMBER

Development of course (Input and Planning)

Medical Retina

Eligibility	MS/DNB/DOMS
Selection	Application / Nomination
Seat	1
Session	Bimonthly
Duration	2 months
Fee	Rs. 30,000
Stipend	Nil
Leave rules	--

Aim of the Training:

Retina is one of the most complicated branch in ophthalmology. Training of human resources in the field will help in better management of various retinal diseases and timely references. Also, it will help us to screen & manage more and more diabetic retinopathy patients which is now taking the form of an epidemic.

Academic schedule

- Seminars /Journal clubs / Case presentations/Group discussions & Quizes
- CMEs & Didactic lectures by the faculty.

Faculty

- In house Consultants
- Long term fellows
- Visiting Consultants

Training Programme

1st Week:

1. Retinal Charting
2. Color Coding
3. Practice of Indirect Ophthalmoscopy / Slit lamp Biomicroscopy on model eye balls

2nd Week – 4th Week:

1. OPD patient workup
2. Daily case presentations to consultants
3. Interesting case discussions
4. Hands on - Ultrasonography

5th – 6th Week

1. Individual patient workup in OPD
2. OCT & FFA observation & hands on training
3. Classes on Lasers
4. Practice of Lasers on Model Eye Balls
5. OT Observation

7th – 8th Week

1. Hands on PRP lasers (depending on the performance & skills of the candidates)
2. Hands on OCT & FFA

Evaluation & Appraisal

- Regular academic & clinical skill evaluations & appraisals will be conducted to monitor the candidates' progress. The candidate will be required to appear for the periodic academic & clinical assessment programs for the resident doctors, in the institute. Their performance in these assessments will be considered at the time of award of fellowship completion certificate.

Change in Course:

Any change in the course shall be done based on any input by the course designing team from time to time. The basic criteria for change shall be the change in the Ophthalmology procedure (National or International)

Stage Verification:

Stage wise verification shall be done by in charge guide from time to time as defined in the procedure and report of verification shall be mentioned in the logbook.

Validation of Course :

In house Validation of course shall be finally done by MS & Joint Director and Certificate shall be issued by Venu Eye Institute & Research Centre after successful completion of the course and signed by the Medical Superintendent in the format No. VEI/ DOE/ACADEMIC YEAR/CERTIFICATE NUMBER

WORKSHOPS

Development of course (Input and Planning)

Contact Lens

- Eligibility : Ophthalmologists/Optometrists
- Selection : Application / Nomination
- Seat : 12
- Session : Workshop (June / December)
- Course duration : 3 days
- Fee : Rs. 10,000 /-
- Mess & accommodation : Rs. 1500 (optional)
- Stipend : Nil
- Leave Rules : As per request & grant

- **Faculty**

- Ophthalmologists & senior optometrists
- Evaluation- Observation & log book

- **Course Content & Methodology**

- Special classes
- Demonstration & Hands on training
- Fitting of soft CL /RGP/ Toric lenses
- Fitting in special situations
- Visit to a CL manufacturing unit
- Access to library/videos/CD
- To maintain a log book

Change in Course:

Any change in the course shall be done based on any input by the course designing team from time to time. The basic criteria for change shall be the change in the Ophthalmology procedure (National or International)

Stage Verification:

Stage wise verification shall be done by in charge guide from time to time as defined in the procedure and report of verification shall be mentioned in the logbook.

Validation of Course :
